

# Vodafone Business Fleet Analytics

Cold chain solution

## Deploy your fleet efficiently for timely and safe delivery of sensitive products

Vodafone Business Fleet Analytics is a modular solution designed to collect operational data, maximise vehicle performance and increase employee safety. We help you protect product quality during delivery, meet food and pharmaceutical safety standards and maintain traceability throughout the supply chain.

You can view real-time data and react promptly to potential issues. This means that you are able to protect your goods and avoid spoilage. You can also optimise routes and improve operational efficiency so that deliveries are completed throughout the day.

**With Vodafone Business Fleet Analytics, you will be able to get actionable insights into your fleet performance, protect your goods and enhance customer service.**

### Vodafone Business Fleet Analytics G09 Telematics Device

- Fast GPS acquisition time
- Captures rich, second-by-second data
- Accurate engine diagnostics
- Self-calibrating accelerometer

### Enhance Productivity & Customer Service

Optimise Fleets & Cut Fuel Costs

Improve Driver Safety

Manage Compliance

IOX input/output interface for expandability

# Vodafone Business

## Fleet Analytics

### Coldchain solution

#### Accelerometer

Determine if equipment or product has been transported safely.

#### Temperature Monitoring

Monitor temperature in real-time and receive alerts if temperature drops or rises outside of user-defined zones.

#### Light Exposure

Determine if tag has been removed from equipment or exposed to light for dangerous goods transport.

#### Driver Feedback

Curb unsafe driving habits through alerts when a vehicle breaks a user-defined rule.

## Use Cases

### Frozen Food & Drugs Delivery

- Monitors real-time temperature of your goods
- Provides real-time information on food and cabin temperature to make sure goods are carefully stored
- Sends alerts if the temperature goes beyond/ below a defined threshold in order to protect the product quality
