

Vodafone Business Fleet Analytics

Truck solution

Logistics Solutions of the Future

Vodafone Business Fleet Analytics for trucks is a modular solution designed to collect both operational and engine data. It helps ensure compliance with EU Directives on tachograph read-outs for employee safety and environmental sustainability, reduce operational costs and maximise productivity and profitability. Remote and automatic driver ID, tachograph-read outs, archival and legal file management, realtime overview of legally valid

driving and resting times, advanced analyses, custom reports and proactive alerts on driving/resting times and tachograph read-out infractions, advanced remote diagnostics and maintenance reports are paramount for effective HGVs fleet management. Consisting of the GO9 device, add-on hardware and software specifically designed to meet the needs of small and medium size mixed fleets.

Vodafone Business Fleet Analytics for trucks is the future of the Transport & Logistics Industry.

Summary

Productivity

- Customer service times
- Identify unexpected stops
- Accurate arrival and departure times
- True trip mileage
- Maximise driver hours

Expandability

- Flexible technology
- System integration (Software Development Kit)
- Hardware Add-Ons & Software Add-Ins
- Cargo protection

Optimisation

- Increase fuel efficiency
- Decrease idle time
- Monitor speeding
- Record engine diagnostics
- Vehicle maintenance

Sustainability

- Reduce fuel costs
- Optimise routes
- Reduce idling
- Monitor CO2 emissions
- Manage vehicle repairs

Compliance

- Respect EU Directives (Resting/driving times) and avoid fines
- Avoid infractions of legislation on tachograph read-outs
- Remote Data Download

Safety

- Collision notifications
- Risk management reports
- In-vehicle coaching
- Seat belt use
- Driving in reverse

Vodafone Business Fleet Analytics

Truck solution

Solution Features

Enhance Visibility

Complete visibility of workforce, assets and costs
Advanced dashboard reports for management
Monitor engine hours & PTO usage

Advanced Diagnostics

Gather deep diagnostics thanks to the CANClamp on top of the OBDII data, that helps lower maintenance costs and reduce CO2 emissions

Access Data Insights

Use Vodafone's data analytics to your advantage by accessing fleet benchmarking, location analytics, urban infrastructure, and environmental insights

Tacho Management

Manage compliance from digital tacho driver identification, realtime tacho status and remote download to data analysis

Improve Driver Safety

Monitor driver behaviour with driver scorecards, risk and safety reports, alerts for harsh braking, sharp cornering and speeding

Advanced Reporting

Create and deliver the information you need. Start with our standard reports and make them more meaningful by tailoring them to your needs

Cut Fuel Costs

Assess optimal vehicle use and cost savings.
Decrease wasted fuel and prevent abuse of resources

Accurate ETAs

Provide accurate ETAs to customers by tracking delivery vehicle movement in real-time

Integrate ERP/TMS

Automate daily tasks and seamlessly manage vehicles, drivers and daily operations

Reduce downtime

Avoid costly downtime with live monitoring of vehicle fault codes

Innovation for Trucks is Telematics

Accurate Fleet Visibility

Manage your entire fleet on one dashboard.
Access highly accurate GPS vehicle tracking, ignition, trip distance and time, engine idling, speed and more.

Simplified Compliance

Manage compliance from digital tacho driver identification, real-time tacho status, over remote download to data analysis.
